SUSTAINABLE WATER TREATMENT AND AGRICULTURAL REUSE OPTIONS IN EUROPE

Date: 13Th June 2019

Speaker: Ing. Mirko Hänel (M.Sc.)

ttz Bremerhaven

SUWANU
EUROPE

SUWANU EUROPE SPECIFIC OBJECTIVES

Set the basis in a participatory and evidence-based process for the development of implementation strategies in 8 target regions

Develop strategies and recommendations to pave the way for the implementation of water reuse solutions.

Create regional networks that combine efforts within and outside the consortium to support implementation and uptake of organizational and technological solutions.

Increase the capacities of practitioners and other stakeholders in water reuse for irrigation.

Develop, summarize and structure practical knowledge for practitioners in a way that it is easy to understand

Create synergies between Regional Working Groups, operational groups, national and international networks and practitioners who supporting the implementation of water reuse.

Strengthen the links between water and farming sectors in order to find synergies for water reuse in agriculture.
